

FUNDED PROGRAM T&Cs

*Positions must be kept open for at **least 5 minutes**, any violation, will result in permanently losing your profits. And if repeated, losing your funded account.

*Hedging between accounts, related, or not related between them, will result in losing your profits and funded account.

*Fraudulent trading activity like: gap arb, latency arb, platform wrong pricing, pricing spikes... will result in permanently losing your profits and funded account.

*We **DO NOT** accept excuses like: "I didn't open that position", "someone stolen my credentials", it is your responsibility to keep safe your account's credentials and secure the account from any unauthorised access. We **DO NOT** bare any responsibility related to this section and we **DO NOT** bare any responsibility for any kind of losses. Any kind of such excuse, will result in permanently losing your account and banned from our funded program.

* We only execute withdrawals after the **minimum 15 active trading days** are completed and **ONLY after you achieved 10%**. Any request that is not as per our T&Cs will be rejected.

* Not acceptable trading pattern means: you open one position, you kept it open for a certain time frame and you succeeded more than 10% profits with only one position. Then you open and close for the next 14 days one position every day just to cover the 15 active days. This is clear pattern of Hedging and profits will be removed.

* NOTE! Any profits withdrawals will be done **ONLY** back to the deposit origin method. **WE DO NOT EXECUTE THIRD PARTY PAYMENTS!**
